# Bond Task Force
Project Ranking Process

December 11, 2012

Tonight's Goal

- Introduce the project prioritization process

- Provide context for the prioritization process and preview the remainder of the evaluation process

- Send task force members home with a project prioritization exercise and present the results at our next meeting

Bond Task Force Process

Education
- Individual project & budget presentations

Criteria
- Establish and define the criteria used to rank projects

Ranking
- Give each project a numerical rank on its own merit

Evaluation
- Determine if a project should be included in the bond program

Grouping
- Organize the projects into potential ballot questions

Prioritization
- Prioritize the selected projects in relation to one another

Project Rank vs. Prioritization

Rank
Assign each project a numerical value based on its own merit

Prioritization
Consider the selected projects in relation to one another

What will be prioritized?

All 51 projects that were considered by the 2013 Bond Task Force

- Assign your top priority project a 1

- Assign your lowest priority project a 51

Please return your project prioritization by Tuesday, December 18

Next Steps

- January
  - Project Grouping Process
  - Finalize Project Prioritization
  - Finalize Recommendation to City Council
- February
  - Study Session with Scottsdale City Council
- March
  - City Council decision on program and possible call for election
